A Met-TECH™ GUIDE

OCTOBER 2021

Colorbond®

Metroll®

BETTER SERVICE • BETTER BUILDING SOLUTIONS

CHOOSING THE RIGHT FENCE MADE EASY

When it comes to choosing a fence we understand that you want a fence that ticks all the boxes: **Good Looking**, **Easy to Maintain** and **Durable**. That's why at Metroll we manufacture a range of fence profiles made from COLORBOND® steel. Couple that with our exceptional engineering and local manufacture and you can't go wrong.

Why a Metroll Fence?

Quality Guaranteed

Don't be fooled, not all fences are created the same, so at Metroll we pride ourselves on ensuring we factor in all the important items that make our fencing the better choice.

Manufactured using only 100% Australian made BlueScope COLORBOND® steel. Not all coloured steel fencing is made from COLORBOND® steel. It's easy to check; COLORBOND® steel fencing is branded with a laser engraving on either side of the fence at least three times on each 2.4m section.

Warranty

Manufactured for compliance to all relevant Australian Standards and backed by a warranty of up to 10 years from BlueScope*.

Low Maintenance

No painting - simply hose clean!

Tried & Tested

COLORBOND® steel is made specifically for the harsh Australian climate with 50 years of testing and an unbeatable reputation for strength and durability.

Made Locally

Manufactured locally with no lengthy wait times and the flexibility to supply non-standard lengths.

Accessories

Includes a range of accessories to help personalise your fence and which can be added post-installation.

Colour Choice

Available in the fabulous range of COLORBOND® steel colours.

Better Privacy

Say goodbye to that gap in the fence and the annoying fence rattle. When installed correctly, Metroll's range of fencing has smooth surfaces and close fitting panels without gaps, visible footholds or loose palings.

EASY MAINTENANCE

Keeping your Metroll fence looking it's best could not be easier, simply hose it down periodically with water and use a soft broom to remove any cobwebs. Avoid letting soil or garden fill build up against your fence as this will retain water and cause corrosion. Avoid spraying your fence with garden sprays and fertilisers as this may damage the fence. Should this occur, simply wash the fence down with water.

Made in Australia

CHOOSE FROM A RANGE OF STYLES...

...from the fencing classic,

Trimclad

There is always a place for classics and the Trimclad® profile from Metroll is a long standing fencing favourite.

ACT, NSW, NT, QLD, SA, TAS, VIC, WA

Or one that suits you & your neighbour too.

Metline® and Metline Premium® are the ultimate in fencing profiles that gives both neighbours the best side of the fence. Not only do they look great, but they have been engineered to be strong and overlap cleanly.

Note: In WA Metline is known as Harmony.

These profiles are identical on both sides
identical on both sides

As the name suggests the Metzag® fence has a bold zig-zag pattern for a contemporary look.

Mini Corodek® is a modern and versatile fence profile. It can be installed with the ribs horizontal or vertical and it can also be curved.

A traditional roofing profile, Corodek® is also perfect as a cost effective fencing option with classic styling.

Available in 14 colours to complement your home

Always check your chosen colour against an actual product swatch.

Standard Panel Width:

2365mm
3125mm
